STUDIES

University of Oradea

Bachelor Degree in Computer Science | 2022 - 2025

I've developed several projects using Python, .NET and SQL, focusing on practical applications and clean code structure. These projects demonstrate my understanding of object-oriented programming, APIs, and database integration. Using Python, I developed a platformer video game from scratch, implementing collision detection and all essential gameplay mechanics typical of the genre. You can explore my work on GitHub.

Certificate of Participation for the "Conversational English Course with American Teachers" The Leaders of Tomorrow 21/10/2024 – 25/10/2024

I have strong English skills at a C1 level, enabling effective communication in professional and technical contexts. Additionally, I possess intermediate German skills at a B1 level, allowing me to understand and engage in everyday conversations.

National College "Gheorghe Sincai", Baia Mare

Class of 2022

HOBBIES

- Coding
- Developing video games
- Teamwork
- Sports
- Music
